

At the LA ROCHE-POSAY laboratories, we are committed and proud to design and develop products that transform the everyday life of sensitive skin.

YOU SHARE WE CARE is a sponsorship program to offer children with sensitive skin from all around the world a thermal cure at the La Roche-Posay thermal center, located in France, in the region of Poitou-Charentes.

If your child currently suffers from atopy, eczema, ichthyosis or burn sequels, you can submit your application now. A board composed of a dermatologist and a pediatrician will review each application. They will select the children according to the severity of their symptoms and their correspondance with the thermal cure treatment protocoles.

➔ **CONTACT DETAILS to be filled by the parents**

Parent's first and last name (please right last name in CAPITAL letters):
